

STINA RESOURCES LTD.

CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED SEPTEMBER 30, 2010 AND 2009

AUDITORS' REPORT

To the Shareholders of Stina Resources Ltd,

We have audited the consolidated balance sheets of Stina Resources Ltd. as at September 30, 2010 and 2009 and the consolidated statements of deficit, operations and comprehensive loss, and cash flows for each of the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial positions of the Company as at September 30, 2010 and 2009 and the results of its operations and its cash flows for the years then ended, in accordance with Canadian generally accepted accounting principles.

In 2010, a total of 256,529 (2009: Nil) agent's warrants were issued with a fair value of \$101,753 (2009: \$Nil) as finder's fees for the September 28, 2010 private placement.

STINA RESOURCES LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED SEPTEMBER 30, 2010 AND 2009

1. NATURE OF OPERATIONS

The Company's primary operation is mineral exploration and development. The Company was also engaged in the health food and supplement products industry, but discontinued these operations at the end of September 2009 (refer to Note 7). The Company's shares are traded on the TSX Venture Exchange (the "Exchange").

The Company is in the process of exploring and evaluating its mineral property interests in the Yukon Territory, Canada and Nevada, USA. The Company presently has no proven or probable reserves, and on the basis of information to date, has not yet determined whether these properties contain economically recoverable resources. The amounts recorded as mineral property interests represent costs incurred to date and do not necessarily represent present or future values. The recoverability of these amounts is dependent upon the existence of economically recoverable reserves, the ability of the Company to arrange appropriate financing to complete the development of its mineral property interests, and upon future profitable production or proceeds from disposition.

The Company has sustained operating losses since inception and has an operating deficit since inception totaling \$4,574,817. These financial statements have been prepared on a going concern basis, which assumes that the Company will be able to realize the carrying value of its assets and discharge its liabilities in the normal course of business for the foreseeable future. The ability of the Company to continue as a going concern is dependent upon the Company raising sufficient equity financing, issuing debt or securing related party advances to complete the evaluation and development of its mineral property interests, the discovery of economically recoverable reserves, and upon future profitable production or proceeds from disposition of its resource property interests. Management anticipates that the Company may need to seek out additional equity financing to continue with the exploration programs on its mineral properties during the 2011 fiscal period, as current cash reserves may not be sufficient to continue its property acquisitions, planned exploration programs and continue operations for the ensuing twelve months. Management is not able to assess the likelihood of timing for raising equity for future acquisitions, exploration or expenditures. This uncertainty represents a liquidity risk and may impact the Company's ability to continue as a going concern in the future.

2. SIGNIFICANT ACCOUNTING POLICIES

a) Consolidation and discontinued operations

These consolidated financial statements include the accounts and operations of the Company and the Company's wholly-owned subsidiary, Stina Resources Nevada Ltd. since inception on December 14, 2009.

The Company's former wholly-owned subsidiary Northern Seas Products Ltd. ("Northern Seas") was dissolved in September 2009. The Company discontinued its Northern Seas operations in fiscal 2009 and wrote off the remaining inventory, equipment and doubtful accounts. For all periods presented, the results of operations and cash flows of Northern Seas have been reported on a discontinued operations basis. (Note 7)

All intercompany balances and transfers were eliminated upon consolidation up to the date of dissolution of Northern Seas.

STINA RESOURCES LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED SEPTEMBER 30, 2010 AND 2009

2. SIGNIFICANT ACCOUNTING POLICIES - CONT'D

b) Short-term investments

Short-term investments include money market based investments and guaranteed investment certificates where initial maturity is more than ninety days. These investments may be redeemed at the Company's option without significant penalty. These investments bear interest at the Bank of Montreal (BMO) Prime rate less 2.05% and BMO Prime rate less 1.95% respectively. The carrying value approximates the fair value of these investments.

c) Mineral property interests

Where specific exploration programs are planned and budgeted by management, mineral exploration costs are capitalized and carried at cost until the properties to which they relate are advanced to the development stage, placed into commercial production, sold, abandoned or determined by management to be impaired in value.

Management evaluates the carrying value of each mineral property interest for impairment on a reporting period basis, or as events and changes in circumstances warrant, and makes a determination based on exploration activity and results, estimated future cash flows, and availability of funding as to whether the carrying value has been impaired.

When future cash flows are not reasonably determinable, mineral interests are evaluated for impairment based on management's intentions and determination of the extent to which future exploration programs are warranted and likely to be funded.

Costs incurred for acquisition, including option payments under acquisition agreements, are capitalized until such time as the related interest is placed into production, sold, abandoned, or where management has determined that an impairment in value has occurred. For mineral property interests under option, the Company records only the costs incurred or committed in respect of work programs or amounts due in the reporting period for payment requirements necessary to maintain the options in good standing.

Proceeds of dispositions of partial mineral interest on properties are credited as a reduction of carrying costs. No profit is realized until all the related costs have been offset by disposition proceeds. If a property is placed into commercial production, accumulated costs to production will be amortized based on units of production.

d) Income taxes

The Company follows Canadian Institute of Chartered Accountants (CICA) Handbook Section 3465 in accounting for corporate income taxes. The guidance focuses on the amount of income taxes payable or receivable that will arise if an asset is realized or a liability is settled for its carrying amount. The resulting future income tax asset or liability is recorded based on substantially enacted income tax rates. In the case of unused tax losses, resource expenditure pools, income tax reductions and certain items that have a tax basis but cannot be identified with an asset or liability on the balance sheet, the recognition of future income tax assets is determined by reference to the likely realization of such benefits at the balance sheet date.

STINA RESOURCES LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED SEPTEMBER 30, 2010 AND 2009

2. SIGNIFICANT ACCOUNTING POLICIES - CONT'D

e) Foreign exchange

Balance sheet items denominated in U.S. dollars are translated into Canadian dollars at exchange rates prevailing at the balance sheet date for monetary items and at exchange rates in effect at the transaction date for non-monetary items. Income statement items are translated at actual rates or average rates prevailing during the year. Realized gains and losses from foreign currency transactions are included in operating results in the period in which they occur.

f) Administrative expenditures

Administrative expenditures are expensed in the period incurred.

g) Use of estimates

The preparation of financial statements in accordance with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant areas requiring the use of management estimates relate to the determination of impairment of assets, asset retirement obligations, allocations between exploration projects, assessments of qualifying exploration expenditures and the determination of the fair value of financial instruments and stock-based compensation. Financial results as determined by actual events could differ from those estimates.

h) Long-lived assets

The carrying values of long-lived assets with fixed or determinable lives are reviewed for impairment whenever events or changes in circumstances indicate the recoverable value may be less than the carrying amount. Recoverable value determinations are based on management's estimates of undiscounted future net cash flows expected to be recovered from specific assets or groups of assets through use or future disposition. Impairment charges are recorded in the period in which determination of impairment is made by management.

Assets with indefinite or indeterminable lives are not amortized and are reviewed for impairment on a reporting basis using fair value determinations by management's estimate of recoverable value. Assets held and available for sale or not in use are segregated and reported at the lower of cost and recoverable amount.

i) Basic and diluted loss per share

The Company follows CICA Handbook section 3500, in calculating earnings (loss) per share. The standard requires the use of the treasury stock method for computing diluted earnings (loss) per share, which assumes that proceeds obtained from the exercise of options or warrants, would be used to purchase common shares at the average market price during the period. Loss per share is calculated using the weighted average number of shares outstanding during the year.

Diluted loss per share is equal to basic loss per share for all periods presented as the effect of all stock options and warrants outstanding have been excluded as they are anti-dilutive.

STINA RESOURCES LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED SEPTEMBER 30, 2010 AND 2009

2. SIGNIFICANT ACCOUNTING POLICIES - CONT'D

j) Financial instruments

The Company follows CICA Handbook Section 3855, financial instruments. The Section prescribes when a financial instrument is to be recognized on the balance sheet and at what amount. Under the Section, financial instruments must be classified into one of five categories: held-for-trading, held-to-maturity, loans and receivables, available-for-sale financial assets, or other financial liabilities. All financial instruments are required to be measured at fair value on initial recognition, except for certain related party transactions. Measurement in subsequent periods depends on whether the financial instrument has been classified as held for trading, available for sale, held to maturity, loans and receivables, or other liabilities.

Financial assets and liabilities classified as held for trading are required to be measured at fair value, with gains and losses recognized in earnings.

Financial assets classified as held to maturity, loans and receivables and financial liabilities (other than those held for trading) are required to be measured at amortized cost using the effective interest method of amortization.

Available for sale financial assets are required to be measured at fair value, with unrealized gains and losses recognized in other comprehensive income. The Company did not have any assets classified as available for sale for the period.

The Company classifies its financial instruments as follows:

Cash and short-term investments are classified as held-for-trading. Cash is measured at its face value, representing fair value. Short-term investments are measured using BMO's posted GIC rates.

Accounts receivable, accounts payables and amounts due to the related parties are classified as loans and receivables and other financial liabilities, respectively. These financial instruments are recorded at amortized cost. The fair value of these instruments approximates their carrying value due to their implied short-term maturity.

Net smelter royalties, buy-out options and similar future entitlements or commitments are not considered to have measurable value until such time as the mineral property interests to which they relate have reached the development or mining feasibility stage.

k) Comprehensive income (loss)

The Company follows CICA Handbook Section 1530, comprehensive income. Comprehensive income (loss) is defined as the change in equity from transactions and other events from non-owner sources. Section 1530 establishes standards for reporting and presenting certain gains and losses not normally included in net income or loss, such as unrealized gains and losses related to available for sale securities and gains and losses resulting from the translation of self-sustaining foreign operations, in a statement of comprehensive income.

For the periods presented, the Company has no items required to be reported in comprehensive income. Accordingly, no separate statement reconciling comprehensive income (loss) has been presented.

STINA RESOURCES LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED SEPTEMBER 30, 2010 AND 2009

2. SIGNIFICANT ACCOUNTING POLICIES - CONT'D

l) Asset retirement obligations

The Company follows CICA Handbook section 3110, relating to the recognition and disclosure of asset retirement obligations and associated asset retirement costs. Management reviews the anticipated obligations and retirement costs of long-lived assets for known obligations under contract, common practice, or laws and regulations. The Company is currently in the exploration stage on its Nevada and Yukon mineral property interests and has not determined to what extent significant site reclamation or environmental remediation costs will be required. The Company records liability for site reclamation, when determinable, on a systematic accrual basis in the period in which such costs, if any, can be reasonably determined.

During 2008, the Company posted a reclamation bond with the Nevada government for potential site remediation in relation to an exploration program. The Company has recorded an asset retirement obligation for the planned remediation following the exploration program which is expected to be completed in 2011.

m) Stock-based compensation

The Company follows the accounting guidelines of the CICA Handbook section 3870, Stock-based Compensation and Other Stock-Based Payments. Under the guidelines, all new or repriced stock-based awards are measured and recognized using the fair-value method. The standard also encourages the use of the fair-value method for all direct awards of stock, stock appreciation rights, and awards that call for settlement in cash or other assets. The fair value of options and other stock-based awards to employees or non-employees, issued or altered in the period, have been determined using the Black-Scholes option pricing model.

n) Non-monetary transactions

All non-monetary transactions are measured at the fair value of the asset surrendered or the asset or services received, whichever is more reliable, unless the transaction lacks commercial substance. The commercial substance requirement is met when the future cash flows are expected to change significantly as a result of the transaction.

o) Related party transactions

All monetary transactions occurring with related parties in the normal course of operations are measured at the exchange value which is determined by management to approximate fair value. Non-monetary transactions in the normal course of operations that have commercial substance and do not involve the exchange of property or product held for sale are also measured at the exchange value. All other related party transactions are valued at the carrying value.

p) Flow-through shares

Canadian tax legislation permits an enterprise to issue flow-through shares, whereby the tax deduction for qualified resource expenditures is claimed by the investor rather than the Company. Recording these expenditures for accounting purposes gives rise to certain taxable temporary differences on the tax basis and carrying amount of related capitalized expenditures.

STINA RESOURCES LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED SEPTEMBER 30, 2010 AND 2009

2. SIGNIFICANT ACCOUNTING POLICIES - CONT'D

p) Flow-through shares – cont'd

Upon renunciation of qualifying expenditures and the filing of prescribed tax forms, CICA Emerging Issues Committee pronouncement EIC 146 requires that, to the extent that there are available tax loss carry forwards and other discretionary deductions available to offset the future tax liability, such offsetting amount is recorded as a future income tax recovery in the period of renunciation.

q) Newly adopted accounting policies

Section 3855, Financial Instruments – Recognition and Measurement

In July 2009, the Canadian Accounting Standard Board (AcSB) issued a typescript of amendments to Section 3855. In particular, entities that have classified financial assets as held-to-maturity investments are now required to assess those financial assets using the impairment requirements of Section 3025. The amendments allow more debt instruments to be classified as loans and receivables. In addition, these amendments require reversal of previously recognized impairment losses on available-for-sale financial assets in specified circumstances and require that loans and receivables that an entity intends to sell immediately or in the near term be classified as held for trading. These amendments apply to annual financial statements relating to fiscal years beginning on or after November 1, 2008. The adoption of this standard did not have a significant effect on the Company's financial position, results of operations or cash flows.

Section 3862, Financial Instruments – Disclosures

In June 2009, the CICA Handbook Section 3862 was amended to include additional disclosure requirements about fair value measurements of financial instruments and to enhance liquidity risk disclosure. The additional fair value measurements disclosures include classification of financial instrument fair values in a fair value hierarchy comprising three levels reflecting the significance of the inputs used in making the measurements, described as follows:

Level 1 – Quoted prices in active markets for identical assets or liabilities;

Level 2 – Inputs other than quoted prices included in level 1 that are observable for the asset or liability, either directly such as quoted prices for similar assets or liabilities in active markets or indirectly such as quoted prices for identical assets or liabilities in markets with insufficient volume or infrequent transactions; or

Level 3 – Inputs that are not based on observable market data.

The Company has included the required disclosures in Note 9 to the financial statements.

STINA RESOURCES LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED SEPTEMBER 30, 2010 AND 2009

2. SIGNIFICANT ACCOUNTING POLICIES - CONT'D

- r) Recent accounting pronouncements, not yet adopted

Transition to International Financial Reporting Standards

In 2006, the AcSB ratified a strategic plan that will result in the convergence of Canadian GAAP, as used by public companies, with International Financial Reporting Standards (IFRS) over a transitional period. The AcSB has developed and published a detailed implementation plan, with a changeover date for fiscal years beginning on or after January 1, 2011. The Company has not assessed the impact of the initiative on its financial statements. The conversion is planned for the first quarter ending December 31, 2011.

Business Combinations, Non-controlling Interest and Consolidated Financial Statements

In January 2009, the CICA issued Handbook Sections 1582 Business Combinations, 1601 Consolidated Financial Statements and 1602 Non-controlling Interests which replace CICA Handbook Sections 1581 Business Combinations and 1600 Consolidated Financial Statements. Section 1582 establishes standards for the accounting for business combinations that is equivalent to the business combination accounting standard under IFRS. Section 1582 is applicable for the Company's business combinations with acquisition dates on or after January 1, 2011. Section 1601 together with Section 1602 establishes standards for the preparation of consolidated financial statements. Section 1601 is applicable for companies' interim and annual consolidated financial statements for fiscal years beginning on or after January 1, 2011. Early adoption of these Sections is permitted and all three Sections must be adopted concurrently. Management expects that the adoption of these sections will not have a significant impact on the financial statements.

Equity

In August 2009, as a result of issuing section 1602 Non-Controlling Interests, the CICA amended Section 3251 Equity requiring non-controlling interests to be recognized as a separate component of equity. These amendments apply only to entities that have adopted Section 1602. Management expects that the adoption of these sections will not have a significant impact on the financial statements.

a) Bisoni MacKay Property, Nevada

On April 25, 2005, Company entered into a property option agreement with Vanadium International Co. ("Vanadium") to purchase a 50% undivided interest in 19 mining claims (the Bisoni MacKay Vanadium Property) covering 392.6 acres, located in Nye County, Nevada, USA. The optioned claims are subject to a 2.5% Net Smelter Royalty (NSR) payable to the vendor.

The Company earned its 50% interest, by making a series of cash payments totaling \$250,000 (\$175,000 of which was settled for 175,000 shares), issuing 1,250,000 shares to Vanadium, as well as funding \$700,000 of exploration activities.

During 2008, the Company exercised a purchase option, included in the original property option agreement, to acquire the remaining 50% interest in the mining claims, for a 100% total interest, subject to the 2.5% NSR. Consideration under the purchase option included a US\$2,000,000 payment to the vendor. The US\$2,000,000 option payment was satisfied in a share settlement through the issuance of 1,995,600 common shares at a stated value of \$0.9978 per share. These shares have been recorded at management's estimate of fair value of \$0.7982 per share, based on a 20% discount from the quoted market price at the time of the share issuance to factor in market conditions and a large block discount.

The Company has staked an additional 18 claims in the area which are contiguous with the existing claims.

During 2008, the Company posted a reclamation bond with the Nevada state government should the Company not complete any required site reclamation or environmental remediation. Effective October 1, 2008, the Company recorded an asset retirement obligation of \$21,768 relating to the Company's activities on the property.

b) Kodiak Property, Yukon

On June 18, 2009, the Company entered into an option agreement with Ryanwood Exploration Inc. ("REI") pursuant to which REI has agreed to grant the Company an option to purchase a 100% beneficial interest in 152 mining claims located in the Dawson Mining District, Yukon Territory, subject to REI retaining a 2% NSR.

3. MINERAL PROPERTY INTEREST - CONT'D

c) Dime Property, Yukon – cont'd

Exploration Expenditures:

- in the amount of \$100,000 on or before November 15, 2009 (incurred)
- an additional amount of \$250,000 on or before November 15, 2010 (incurred)
- an additional amount of \$500,000 on or before November 15, 2011
- an additional amount of \$750,000 on or before November 15, 2012

The Company has the option to purchase one half of the NSR for a payment of two million dollars.

d) Zeibright Mine, California, USA

On February 19, 2009, the Company entered into an option agreement with Steephollow Resources Inc. ("SRI"), pursuant to which SRI has agreed to grant the Company an option to purchase a 100% beneficial interest in certain mining claims located in Nevada County, California, United States. The claims are subject to a 2% NSR.

To exercise the option, the Company must: (i) incur and finance exploration expenditures on the property of not less than \$100,000, on or before the second anniversary of the approval date of the option agreement by the Exchange (approved March 18, 2009); and (ii) allot and issue one million shares in the capital stock of the Company to SRI upon the completion of such exploration expenditures.

The Company entered into a suboption agreement (the "Suboption Agreement") with Gordon Lee (the "Optionee") who has the right to earn 70% of the Zeibright Gold Property (the "Property") from the Company by conducting US\$2 million of exploration work on the property over four years. The Company has an option to earn 100% of the Zeibright Property from SRI in consideration for exploration expenditures of \$100,000 within two years and the payment of 1 million common shares. Both the Company and SRI have agreed to transfer 70% of the Company's interest to the Optionee under the Suboption Agreement in consideration that the exploration expenditures under the Suboption Agreement will be applied to the Company's obligation. The Company is still required to issue the shares to SRI.

The Optionee is required to expend amounts according to the following schedule:

- \$200,000 by July 18, 2010
- \$300,000 by April 18, 2011
- \$500,000 by April 18, 2012
- \$1,000,000 by April 18, 2013

The Company also maintains the right to buy back a 20% interest in the Property for the payment of \$500,000 within ninety (90) days after the Optionee has exercised its option.

The Company did not receive confirmation of the expenditures required by July 18, 2010 and the option agreement has been terminated with the Optionee with no ongoing obligations for the Company.

STINA RESOURCES LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED SEPTEMBER 30, 2010 AND 2009

3. MINERAL PROPERTY INTEREST - CONT'D

Management completed its review for indicators of impairment and determined that there have been no significant indications of impairment to the carrying value of the Company's mineral property interests as at September 30, 2010 and September 30, 2009. Management believes that the properties still have future benefit and economic potential. However, this assessment could change in the future if financial and commodity markets weaken for a sustained period or if there are onerous changes in environmental requirements.

4. SHARE CAPITAL – CONT'D

b) Issued – cont'd

- i) On September 24, 2010, the Company completed a non-brokered private placement of 400,000 share units at \$0.63 per unit. Each unit consists of one common share and one-half of one share purchase warrant. Each full warrant entitles the holder to acquire one additional common share at \$0.73 per share until September 24, 2012. The warrant component of the share unit has an estimated fair value of \$58,786 using the Black-Scholes Option Pricing Model under the following assumptions: expected life 2 years; volatility 120.89%; risk free rate of return 1.69%; dividend yield 0%. The fair value of the warrant component has been reallocated to contributed surplus. The share units are subject to a four month plus one day hold period expiring January 25, 2011.
- ii) On September 28, 2010, the Company completed a non-brokered private placement of 2,610,285 share units at \$0.70 per unit. Each unit consists of one common share and one-half of one share purchase warrant. Each full warrant entitles the holder to acquire one additional common share at \$0.85 per share until September 28, 2012. The warrant component of the share unit has an estimated fair value of \$426,477 using the Black-Scholes Option Pricing Model under the following assumptions: expected life 2 years; volatility 121.41%; risk free rate of return 1.69%; dividend yield 0%. The fair value of the warrant component has been reallocated to contributed surplus. The share units are subject to a four month plus one day hold period expiring January 29, 2011.

Finders' fees of \$179,570 in cash were paid in connection with the above private placement, and a total of 256,529 agents warrants exercisable at \$0.85 per share were issued. The agents warrants have an estimated fair value of \$101,753 using the Black-Scholes Option Pricing Model under the following assumptions: expected life 2 years; volatility 92.7%; risk free rate of return 1.74%; dividend yield 0%. The fair value of the agents warrants has been recorded to contributed surplus.

- iii) On January 16, 2009, the Company completed a non-brokered private placement of 661,500 common shares at \$0.20 per share.
- iv) On July 10, 2009, the Company completed a non-brokered private placement of 3,000,000 common shares at \$0.47 per share.
- v) On July 10, 2009, the Company completed a non-brokered private placement of 1,923,076 share units at \$0.52 per unit for proceeds of \$1,000,000. Each unit consists of one flow-through common share and one-half of one non flow-through share purchase warrant. Each full warrant entitles the holder to acquire one additional common share at \$1.00 per share up to July 10, 2010 or \$1.25 per share until July 10, 2011. The warrant component of the share unit has an estimated fair value of \$215,000 using the Black-Scholes Option Pricing Model under the following assumptions: expected life 2 years; volatility 140%; risk free rate of return 1.97%; dividend yield 0%. The fair value of the warrant component has been reallocated to contributed surplus.

Finders' fees of \$131,000 in cash were paid in connection with the above private placement.

- vi) On February 2, 2010, the Company issued 200,000 common shares, at an estimated fair value of \$0.38 per share as part of a property acquisition. Fair value was determined using the quoted price at the time of the transaction.
- vii) On July 8, 2009, the Company issued 250,000 common shares, at an estimated fair value of \$0.44 per share as part of a property acquisition. Fair value was determined using the quoted price at the time of the transaction.
- viii) On June 15, 2010, the Company issued 200,000 common shares, at an estimated fair value of \$0.50 per share as part of a property acquisition. Fair value was determined using the quoted price at the time of the transaction.

- b) Issued – cont'd
- ix) On June 23, 2010, the Company issued 200,000 common shares, at an estimated fair value of \$0.51 per share as part of a property acquisition. Fair value was determined using the quoted price at the time of the transaction.
- x) The Company records the grant date fair value of vested stock options as a credit to contributed surplus. These amounts are transferred to share capital upon exercise of the underlying stock options. During the period, \$2,850 was transferred to share capital for options exercised.
- xi) In July 2009, the Company raised \$1,000,000 under flow-through arrangements with subscribers. Under Canadian Tax legislation the Company renounces qualifying expenditures in favour of the share subscribers and must incur such qualifying expenditures within a one year period from renunciation. Accordingly, the Company is committed to incur \$1,000,000 of qualifying expenditures before December 31, 2010. The tax benefit of the qualifying expenditures was renounced to the subscribers on January 12, 2010. The tax value of the qualifying expenditures of \$250,000 has been reduced from share capital. To the extent that the Company has available loss carryforwards or other unused tax deductions to offset the renounced benefit, a future income tax recovery has been recognized.

c) Shares in escrow

As at September 30, 2010, 187,500 shares were held in escrow. The shares are subject to a time release escrow agreement as follows:

<u>Anticipated release dates:</u>	<u>Shares for release</u>	
December 24, 2010	93,750	(Subsequently released)
June 24, 2011	<u>93,750</u>

4. SHARE CAPITAL – CONT'D

e) Stock options – cont'd

At September 30, 2010 the following stock options were outstanding:

<u>Number of shares</u>	<u>Exercise Price - \$ -</u>	<u>Expiry Date</u>
675,000	0.30	November 3, 2014
<u>825,000</u>	0.46	August 5, 2015
<u>1,500,000</u>		

On November 3, 2009, the Company granted 675,000 options to directors and consultants. The estimated fair value of the grant is \$235,439 or approximately \$0.35 per option, which has been recorded as stock-based compensation. The fair value was estimated using the Black-Scholes Option Pricing Model under the following assumptions: expected life 5 years; volatility 126%; risk free rate of return 2.68%; dividend yield 0%.

On August 5, 2010, the Company granted 825,000 options to a director and companies owned by directors. The estimated fair value of the grant is \$331,260 or approximately \$0.402 per option, which has been recorded as stock-based compensation. The fair value was estimated using the Black-Scholes Option Pricing Model under the following assumptions: expected life 5 years; volatility 90.0%; risk free rate of return 2.25%; dividend yield 0%.

On January 8, 2009, the Company amended the exercise price of outstanding options from \$0.50 to \$0.21. All other terms remained the same. Each option entitled the holder to purchase one common share at an exercise price of \$0.21 until May 18, 2010. The estimated increase in fair value, resulting from repricing the options, was \$46,484 or approximately \$0.05 per option, which was recorded as stock-based compensation.

YEARS ENDED SEPTEMBER 30, 2010 AND 2009

8. INCOME TAXES

The actual income tax provision differs from the expected amounts calculated by applying the Canadian combined federal and provincial corporate income tax rates to the Company's loss before income taxes. The components of these differences are estimated as follows:

	2010 \$	2009 \$
Loss from continuing operations before income taxes	(911,363)	(262,935)
Corporate tax rate	28.85%	30.10%
Expected tax recovery at statutory rates	(262,900)	(79,100)
Decrease (increase) resulting from:		
Changes in estimated corporate tax rates	20,300	31,600
Expiry of non-capital losses carried forward	16,900	12,600
Non deductible stock compensation	163,500	14,000
Change in future tax asset valuation allowance	(134,900)	59,800
Share issue costs and other	(52,900)	(38,900)
Future income tax provision (recovery)	(250,000)	-

The Company's tax-effected future income tax assets and liabilities are estimated as follows

	2010 \$	2009 \$
Potential future income tax assets (liabilities)	25.00%	25.00%
Non-capital losses available	407,700	323,000
CEC pool	8,700	9,300
Share issue costs and other	55,600	26,200
Capital losses available	1,500	1,500
	473,500	360,000
Net book value of mineral property interests in excess of tax bases	(248,400)	-
Net potential future income tax assets	225,100	360,000
Valuation allowance		
Valuation allowance, opening	(360,000)	(281,100)
Change in valuation allowance – discontinued operations	-	(18,400)
Change in valuation allowance – continuing operations	134,900	(59,800)
Valuation allowance, ending	(225,100)	(360,000)
Net future income tax assets	-	-

STINA RESOURCES LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED SEPTEMBER 30, 2010 AND 2009

8. INCOME TAXES – CONT'D

At September 30, 2010, the Company had net operating losses of \$1,630,800, inclusive of those inherited from the discontinued operations of Northern Seas, for income tax purposes which subject to restrictions may be available to reduce future taxable income. If not utilized, the losses expire through 2030 as follows:

	<u>\$</u>
2030	405,900
2029	314,600
2028	225,700
2027	182,200
2026	219,300
2015	198,900
2014	<u>84,200</u>
	<u>1,630,800</u>

Management has determined that there is insufficient likelihood of recovery to record a future benefit arising from potential tax assets. Accordingly a 100% valuation allowance has been applied.

Subsequent to year end, management and the property optionor have entered into negotiations, whereby the parties have proposed a revised area of mutual interest for the Dime and Kodiak Properties in exchange for making certain tax filings to transfer the common shares to the optionor at the optionor's tax cost base. If the negotiations prove successful, the filing of the tax elections is expected to reduce the tax base of the Company's mineral projects which would result in a temporary timing difference. The outcome of these negotiations and the amount of any temporary timing difference that may result is not presently determinable.

9. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

The Company's financial instruments include cash, short-term investments and accounts receivable. The carrying value of these financial instruments approximates their fair value due to their short-term nature. The fair value of cash and short-term investments are measured based on level 1 input of the fair value hierarchy.

The Company is engaged primarily in the mineral exploration field and manages related industry risk issues directly. The Company is potentially at risk for environmental issues and fluctuations in commodity based market prices associated with resource property interests. Management is of the opinion that the Company addresses environmental risk and compliance in accordance with industry standards and specific project environmental requirements.

Financial Risk Management:

The Company is exposed in varying degrees to a variety of financial instrument related risks.

STINA RESOURCES LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED SEPTEMBER 30, 2010 AND 2009

9. RISK MANAGEMENT – CONT'D

Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's primary exposure to credit risk is in its cash accounts, short-term investments and accounts receivables. Cash accounts and short-term investments are held with a major bank in Canada. This risk is managed through the use of major banks which are high credit quality financial institutions as determined by rating agencies. The Company's secondary exposure to credit risk is in its receivables. This risk is minimal as receivables consist primarily of refundable government sales taxes.

Currency Risk

The Company's functional currency is the Canadian dollar. There is moderate foreign exchange risk to the Company as some mineral property interests are located in the United States. Management monitors its foreign currency balances and makes adjustments based on anticipated need for currencies. The Company does not engage in any hedging activities to reduce its foreign currency risk.

Interest Rate Risk

The Company's exposure to interest rate risk relates to its ability to earn interest income on cash balances and short-term investments at variable rates. The fair value of the Company's cash accounts is relatively unaffected by changes in short term interest rates. The income earned on certain bank accounts is subject to the movements in interest rates.

Liquidity Risk

Liquidity risk arises through the excess of financial obligations over available financial assets due at any point in time. The Company's objective in managing liquidity risk is to maintain sufficient readily available reserves in order to meet its liquidity requirements at any point in time. The Company achieves this by maintaining sufficient cash balances and/or short-term investments that are readily available.

10. CAPITAL MANAGEMENT

The Company manages its cash, common shares, stock options and warrants as capital. The Company currently manages its capital structure and makes adjustments to it, based on cash resources expected to be available to the Company, in order to support the planned exploration and development of mineral property interests. Management has not established a quantitative capital structure, but will review on a regular basis the capital structure of the Company relative to the stage of development of the business entity and mineral property interest.

The Company currently is dependent on externally provided equity financing to fund its exploration and development activities. In order to carry out planned exploration and development and fund administrative costs, the Company will allocate its existing capital and plans to raise additional amounts as needed through equity and related party advances, if available. Management reviews the capital management approach on an ongoing basis and believes that this approach is reasonable for the current state of the markets and exploration industry.

There were no changes in the Company's approach to capital management for the year ended September 30, 2010 compared to the year ended September 30, 2009. The Company is not subject to externally imposed capital requirements.

STINA RESOURCES LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED SEPTEMBER 30, 2010 AND 2009

11. COMMITMENT

During the year ended September 30, 2009, the Company issued 1,923,076 flow-through shares for proceeds of \$1,000,000. The proceeds from these issues must be used for qualifying exploration expenditures which were renounced by the Company in favor of the investors purchasing such shares and expenditures are not available to the Company for income tax purposes. The qualifying exploration expenditures must be fully incurred by December 31, 2010.

The Company incurred qualifying expenditures of \$781,867 up to the year ended September 30, 2010.

12. SUBSEQUENT EVENTS

On October 19, 2010, the Company completed a non-brokered private placement of 1,458,571 share units at \$0.70 per unit. Each unit consists of one common share and one-half of one share purchase warrant. Each full warrant entitles the holder to acquire one additional common share at \$0.85 per share until October 19, 2012.

Finders' fees of \$94,400 in cash were paid in connection with the above private placement.

13. RECLASSIFICATION

Certain of the prior period figures have been reclassified to conform to the current period's presentation.

Gross proceeds from subscribed private placement units are allocated between the share component and warrant component. In the prior fiscal year, the warrant component of the share unit's subscribed was included in share capital. The Company has reclassified prior period's share capital and contributed surplus to allocate the warrant component to contributed surplus in order to conform with the current periods classification. This is a reclassification between equity accounts and accordingly has no effect on total shareholders' equity or deficit at September 30, 2009.
